SUBJECT INDEX

Actinomycin D, DTIC and — with and without C parvum immunotherapy in advanced malignant melanoma, 215
Adriamycin, —, bleomycin, vinblastine and DTIC in advanced diffuse lymphocytic poorly differentiated lymphoma, 477
——, Plasma and tissue distribution of — in the patients with pelvic cancer, 533
Aminoglcosides, Tobramycin versus gentamicin in combination with cephalotin undergoing bone marrow transplantation or intensive hematologic treatment, 605
Angiosarcoma, Postmastectomy —: Ultrastructural study of a case, 79
Asbestos, — exposure in the Monfalcone area. A social and pathological study of 100 autopsy cases, 279
Ataxia telangiectasia, — and acute lymphoblastic leukemia: report of a case, 585

BCNU, High dose — followed by autologous bone marrow infusion in glioblastoma multiforme, 473
Biscloronitrosourea, Fibrosi polmonare settale successiva a trattamento con —, 53
Bladder, Primary neoplasm in vesical diverticulum: Comparison of four imaging methods, 71
——, Effect of BCG immunotherapy on cell-mediated cytotoxicity in bladder cancer patients following surgical treatment, 177
Bleomycin, Adriamycin, —, vinblastine and DTIC in advanced diffuse lymphocytic poorly differentiated lymphoma, 477
Bone marrow, Involvement of the bone marrow by non-Hodgkin's lymphomas: Incidence, histology and pathologic correlations, 191
——, Tobramycin versus gentamicin in combination with cephalotin undergoing bone marrow transplantation or intensive hematologic treatment, 525
Brain, Combination chemotherapy for metastatic — tumors, 559
Breast, DMBA is ineffective in inducing — cancer in feminized male Holtzman rats, 9
——, — cancer: Primary tumor characteristics related to lymph node involvement, 19
——, Criteria of clinical and radiological diagnosis in nonpuerperal acute phlogistic-like processes of the breast: Considerations on 97 consecutive cases, 31
——, Usefulness of chest and skeletal survey to assess the time of relapse in — cancer, 35
——, Postmastectomy angiosarcoma; Ultrastructural study of a case, 79
——, Usefulness of — self-examination of an early detection of — cancer. Results of a study on 500 — cancer patients and 652 controls, 219

——, Postoperative radiotherapy in N- — cancer. A retrospective case-control study, 443
Breast, Diagnostic accuracy of xeromammography, 447
——, Histology and cytometrics in human — cancer assayed for the presence of prolactin receptors, 549

Carcinogenesis, DMBA is ineffective in inducing breast cancer in feminized male Holtzman rats, 9
——, Alkaline DNA fragmentation in vivo: Borderline or negative results obtained respectively with 7,12-dimethylbenz[a]anthracene and benzo[a]pyrene, 87
Carcinoids, Clinical considerations on 8 cases of abdominal —, 145
Cardiomyopathy, — of doxorubicin in experimental animals. Factors affecting the severity, distribution and evolution of myocardial lesions, 461
CEA, The value of the — test in the diagnosis of metastases of adenocarcinoma of the gastroenteric tract, 109
——, Association of — test and liver scan in detection of hepatic metastases of gastrointestinal carcinoma, 553
Central nervous system, A pathologic study of malignant gliomas operated after radio- and chemotherapy, 13
——, Involvement of the — in non-Hodgkin's lymphoma, 39
——, — involvement in non-Hodgkin's lymphomas: Value of lumbar puncture as initial staging procedure, 197
——, Preliminary report on antitumorigenic activity of cis-dichlorodiamine platinum in metastatic brain tumors, 483
Cephalotin, Tobramycin versus gentamicin in combination with — undergoing bone marrow transplantation or intensive hematologic treatment, 525
Chemotherapy, A pathologic study of malignant gliomas operated after radio- and —, 13
——, Liver assessment in women receiving adjuvant CMF —, 27
——, Vinblastine plus bleomycin continuous infusion — of stage III testicular carcinomas, 117
——, Severe heart disease induced by radiation and — of Hodgkin's disase, 361
——, Combination — for metastatic brain tumors, 559
Childhood, Therapy of acute nonlymphocytic leukemia in children. A review of 73 patients, 209
Cis platinum, Preliminary report on antitumorigenic activity of cis-dichlorodiamine platinum in metastatic brain tumor, 483
